SUPERSIZE

Supersize is a game development studio

- Thoughtful gameplay
- Fair competition
- Cash prizes
- No interruptions
- No ads
- No pay to win

SUPERSIZE

Building a new home for online competition

MATCHES PLAYED IN 2026

890K

VOLUME IN 2026

$200K

Figures are for 2026 so far.

TRACTION

Compelling first-year results and retention

39%

of day-7 players still play at day 90

D7 7.0% → D90 2.7%

9%

of active players pay

936 payers · F2P avg 1-3%

$22

revenue per paying user

ARPPU, all time

2x

growth in matches played since July

430K → 890K

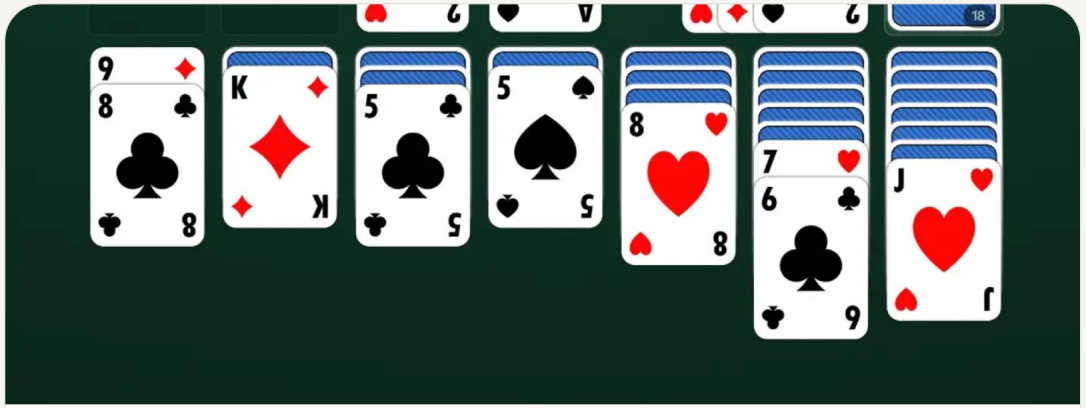

PRODUCT

Our games

Slimecoin.io

A growing library of 8+ games.

Solitaire.fun

Strategic PvP solitaire.

Supersize makes better games with its proprietary, highly scalable on-chain protocol

PROTOCOL

Built decentralized

VAULT

Non-custodial

Users always retain full control over their funds.

MATCHMAKING

Identical conditions

Opponents get the same shuffle, board or pieces in the exact same order.

GAMES

Fully on-chain

Every move, score and result is publicly recorded and verifiable.

Real-time on MagicBlock rollups, settled on Solana.

HOW IT WORKS

01	**Lock**	Both players lock the same buy-in in a non-custodial vault.
02	**Match**	Matchmaking pairs players by game and buy-in, under identical game conditions.
03	**Play**	Every move and score is produced by on-chain game logic.
04	**Settle**	The higher score wins the pot less a 10% rake.

PAYMENTS

No middleman between players and games

OLD WAY

The PSP is the middleman between the app and the user, and every dollar passes through it.

NEW WAY

The user buys USDC through a PSP, then plays directly with the app. The PSP never handles money between them.

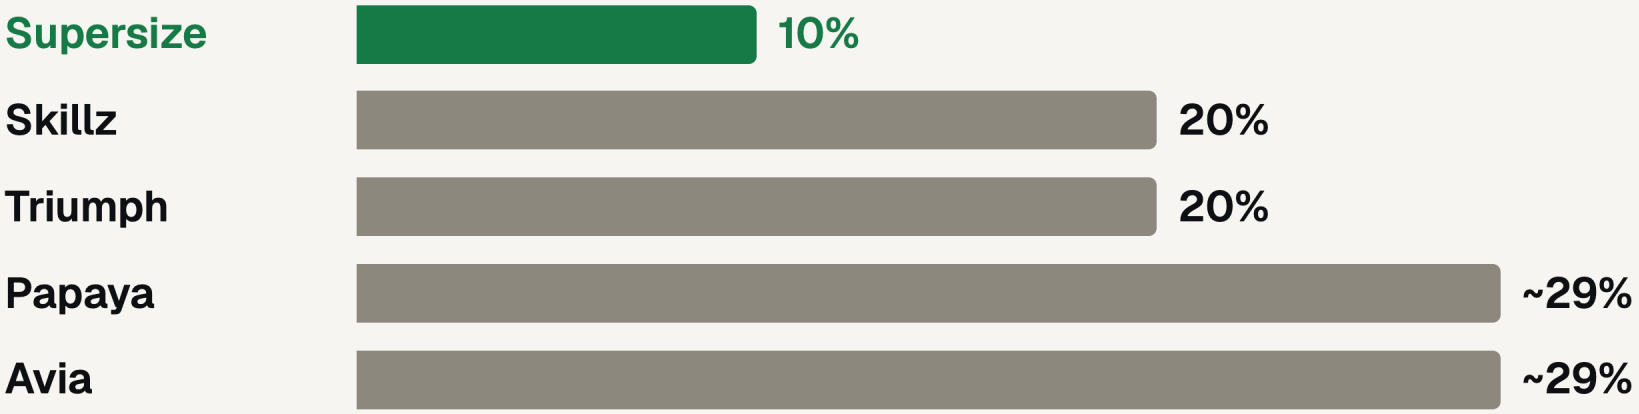

Supersize offers an industry-best 10% rake on matches for cash

COMPETITION

The edge is better game economics

Incumbents can copy any game. They can’t copy a business model that shares more with players through lower operating costs.

RAKE: SHARE OF ENTRY FEES THE PLATFORM KEEPS

~$1.2B

Est. 2025 U.S. net revenue from real money skill-game apps

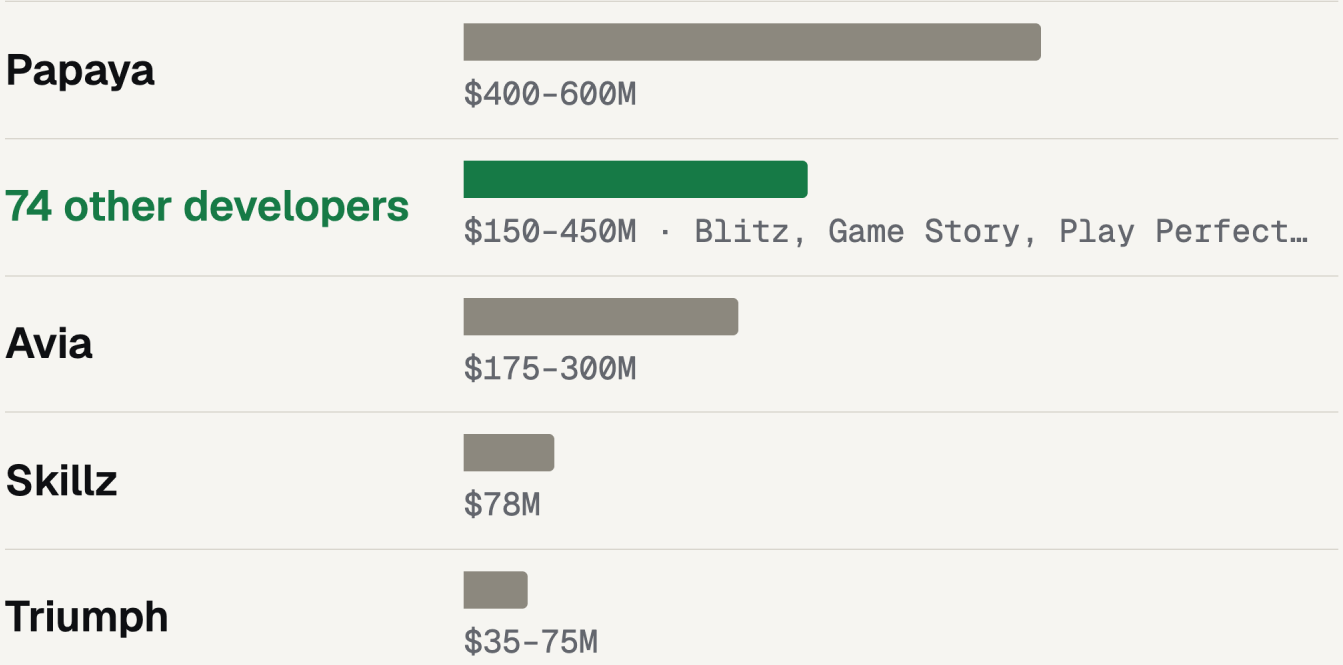

78

developers, ~200 cash-game apps

MOST POPULAR GAMES

COMPLIANCE

Jurisdiction controls are product features

Skill contests only

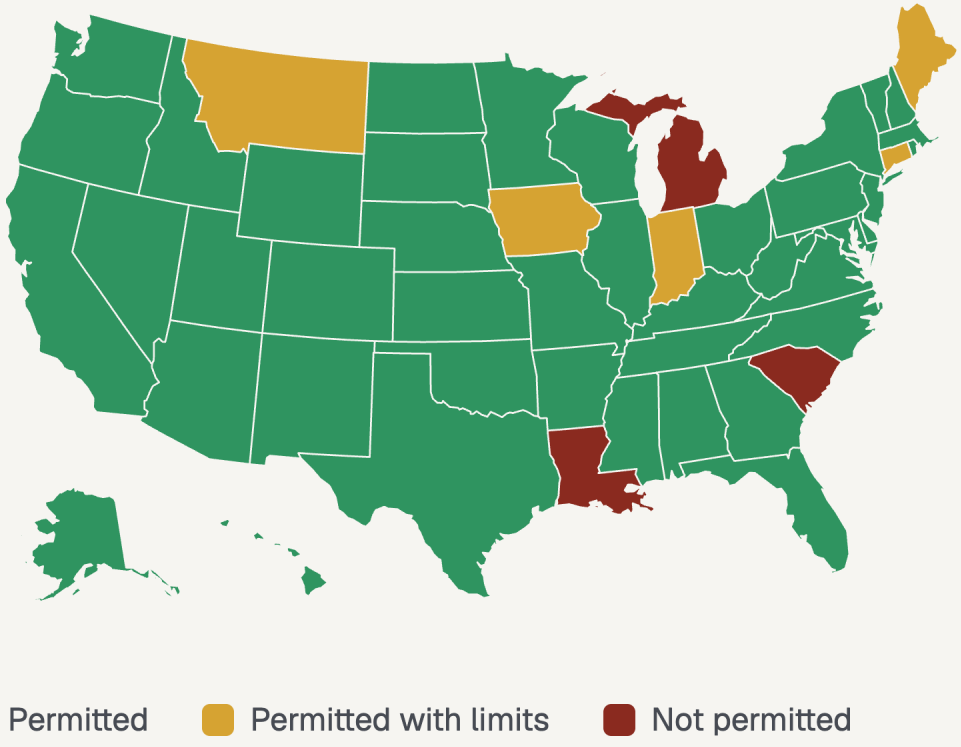

Matches decided by score under identical game conditions.

Geo-restricted

Paid play is blocked state by state wherever skill contests aren't permitted.

Responsible play

18+ only, with published terms and conditions and a responsible gaming policy.

TEAM

A technical team that ships games and protocols

Lewis Arnsten

CEO

B.A. Computer Science (2023)
Press Start Capital accelerator (2024)
Colosseum Radar hackathon winner (2024)

Denys Amelchenko

CTO

4x Solana hackathon winner
12+ years designing distributed high-throughput systems
